

I am a full-stack software developer with a strong design background. In my previous career as an architect, the process of designing skyscrapers trained me to break down complex problems into their constituent parts. No one could build the projects alone, it was always the result of collaborative effort. Due to that, I grew to be a team player.

LEE, OK-HYUN

FULL STACK WEB DEVELOPER

Atlanta, GA

1-678-793-7542

babylee2002@gmail.com
